Lightly touching the delicate strings of our heart, we re-sensitise our Being to allow us to feel what is hidden in its depths.

Through the use of Dances of Universal Peace, Visualisation, Stories, Meditation, Connecting with nature around and inside us, we fine-tune the instrument of our Heart, to play the pure notes of our Soul in the cosmic orchestra of harmony.

Dakini is a seeker on the path of the heart, a dance leader and a mentor of Dances of Universal Peace, a Sheikha offering spiritual guidance in Sufi Ruhaniat International and a student of Tibetan Buddhism. Born in Estonia, she resided in Scotland for many years, creating and leading at numerous dance and sufi events worldwide since 1990-s. She serves on the DUP International Board of Directors and travels internationally guiding those who yearn for a deeper intimacy with the divine.
